SUMMARY

Lead Frontend Engineer with 8+ years of experience delivering large-scale, high-performance web applications using React, TypeScript, Next.js, and modern JavaScript frameworks. Proven expertise in frontend architecture, UI scalability, reusable component systems, and performance optimization, supporting enterprise and high-traffic applications with 100K+ active users. Strong track record of leading distributed teams, mentoring developers, and collaborating with US/UK clients, while driving clean code standards, CI/CD integration, and scalable frontend solutions. Actively seeking frontend engineering opportunities in the UAE market.

TECHNICAL SKILLS

- Frontend Technologies:** React.js, Next.js, Redux, React Query, Context API, Tailwind, MUI, Shadcn
- Programming Languages:** TypeScript, JavaScript (ES6+)
- Web Technologies:** HTML5, CSS3, SCSS, Responsive Web Design
- Architecture:** Micro Frontends, Component-Based Architecture
- API Integration:** RESTful APIs, JSON
- Performance Optimization:** Code Splitting, Lazy Loading, Caching
- Testing:** Jest, Unit Testing
- Tools & Practices:** Git, CI/CD, Agile/Scrum, Storybook
- Other:** Cross-Browser Compatibility, Accessibility, SEO Optimization

PROFESSIONAL EXPERIENCE

Lead Frontend Developer / Lead Technical Consultant

Perficient, Inc. (Client: New York Life Insurance)
2024 - Present

- Developed scalable, responsive enterprise-scale applications using React.js, TypeScript, HTML5, and CSS3 for users
- Led frontend development for large-scale applications, ensuring high performance and cross-browser compatibility
- Designed and implemented reusable component libraries and design systems to improve UI consistency
- Integrated RESTful APIs and optimized state management using Zustand and React Query
- Implemented performance optimization techniques including lazy loading and code splitting
- Established CI/CD pipelines and automated testing using Jest to improve deployment reliability
- Collaborated with cross-functional teams in Agile/Scrum environments

Senior Frontend Developer / Senior Technical Consultant

Perficient, Inc. (Client: TRACT)
2022 - 2024

- Built and maintained scalable frontend architecture using React.js and TypeScript
- Developed 40+ reusable UI components, improving development efficiency by 35%
- Implemented responsive design and ensured cross-browser compatibility across applications
- Collaborated with product and design teams to deliver user-friendly, accessible interfaces
- Defined coding standards and documentation for long-term maintainability

Frontend Developer

Redgrape Business Services

2020 - 2022

- Developed responsive web applications using React.js, JavaScript, HTML5, and CSS3
- Improved SEO performance and accessibility for e-commerce platforms
- Integrated REST APIs and ensured seamless frontend-backend communication
- Optimized website performance and enhanced user experience
- Worked closely with designers and backend developers in Agile environments

Frontend Developer / Software Engineer

RPhoton Interactive Pvt Ltd (Client: L'Oréal)

2017 - 2020

- Built responsive and user-friendly web interfaces using JavaScript
- Developed reusable components and improved application scalability
- Ensured cross-browser compatibility and accessibility compliance
- Collaborated with global teams on digital transformation projects

KEY ACHIEVEMENTS

- Improved page load speed by 30% through performance optimization techniques
- Built reusable component libraries used across multiple enterprise applications
- Supported applications with 100K+ active users
- Reduced technical debt by 40% through migration to React.js and TypeScript
- Implemented CI/CD pipelines and automated testing to improve release quality

EDUCATION

Bachelor of Engineering (Computer Science)
(2013 – 2017)

Jeppiaar Institute of Technology

LANGUAGES

English
Full Professional Proficiency

Tamil
Native or Bilingual Proficiency
